PART I: GENERAL INFORMATION

• DESCRIPTION OF TOWN

- SHORT HISTORY AND LOCATION

Galicia lies in the northwest of Spain, to the North of Portugal and on the Atlantic Ocean coast. It is an Autonomous Region divided into four provinces: A Coruña, Lugo (in the North) and Ourense and Pontevedra (in the South). Galicia is a mountainous and rugged region with vast valleys, forests and meadows and white sandy beaches. The Rías Altas and Rías Bajas have a unique outstanding beauty and are clear references of our region.

Vigo
The city of Vigo is spread along the shores of a 30 km long ría (bay), called Ría de Vigo and just 25 km from Portugal. Due to this strategic location, Vigo was already a trading city in ancient times and is currently one of the principal European ports, with an important industrial infrastructure. The presence of industries such as car manufacturing, shipyards, fish-canning, construction, granite industries and fashion among others, is what makes the city of Vigo the main industrial powerhouse of Galicia. As it is located near Portugal, close links have been developed in trade, culture and infrastructure. The north of Portugal, in particular, has benefitted immensely from this industrial and economic development and Vigo is the main city for shopping and services to serve the south of Galicia and the north of Portugal.

But Vigo has much more to offer than just its industry. The old quarters of the city lie within the limits of its ancient ramparts. The lower part is of great touristic interest with its Piedra (stone) market and square, Cesteros (basket makers') street, the neoclassic Saint Mary’s collegiate church, Constitution square and the O Berbés fishing village. This part of the city contrasts with the modern buildings in the rest of Vigo. The city has grown rapidly during recent years and has not only become the nerve centre of Galicia but also the most populated city in the region. What is more, Vigo has gained international recognition with the annual world exhibitions that are held here. When in the city, you must visit the points at O Castro, A Guía and A Madroa, with beautiful views of the estuary, as well as Castrelós Park – the most beautiful urban park in Galicia, where the local museum Pazo Museo de Quiñones de León is located. The city has also got the only zoo in the whole of Galicia. Vigo is especially well known for its white sandy beaches and for the Cíes Islands (15 km from Vigo) – a beautiful natural park, with one of the most important ecosystems along the Galician coastline, and a privileged breeding ground for marine birds.

- MAIN LOCAL/CULTURAL EVENTS

• Carnival:
For approximately five days, the city of Vigo dresses up to celebrate the traditional winter carnival. Apart from eating the traditional sweets "filloas", very similar to crêpes, and "orejas", a fried pastry shaped as an ear, people tend to gather to participate in the different contests organized by the City Hall: a children’s carnival is held at the Alameda Park, a carnival parade contest which marches over the main streets of the city to the sound of music is
organized and, finally, there is also a popular folk song contest. On the last day of carnival, known as “Wednesday of Ashes”, the people mourn for the spirit of carnival and bury the sardine, the typical symbol of carnival that marks the end of the celebrations.

- The Re-conquest of Vigo:
A popular revolt on the 28th of March, 1809, enabled locals to recover Vigo from occupation by Napoleonic troops. The Resident’s Association of the Old Quarters of Vigo set up a great Re-conquest Day celebration, with a representation of the citizens of Vigo fighting the invaders, dressed in attire of the time. This celebration has become one of the most important event of the city.

- St John’s Day:
From the 23rd to the 24th June we celebrate the Midsummer’s Eve. This is the moment when nature, men and the stars get ready to celebrate a festivity full of power and magic. Along O Berbés fishing village, several bonfires are lit, over which sardines are cooked and around which people sing and celebrate.

- St Roque’s Day:
This saint is the patron of Vigo, and on the 16th August the whole city celebrates his day by organizing gathering at San Roque’s Park, where music is played and everyone gathers to eat in the sun.

- Summer Music Festivals:
The months of June, July and August witness a great number of concerts and music festivals that make Vigo one of the most innovative cities in the area. Apart from these festivals, many individual concerts are organized at Castrellos Park during the summer months.

### HOW TO REACH TOWN (LINKS FROM THE NEAREST AIRPORT, TRAIN OR COACH STATIONS)

**Travel to Galicia: transport:**
Flying is the option chosen by most foreign students. You can fly to Vigo’s Peinador airport. Peinador airport is only 15 minutes from the city centre. You may choose to take a taxi (about 21 Euros) to the centre of Vigo.

You can also fly to Santiago de Compostela, the capital of Galicia, or to Porto in Portugal (TAP airways). There are direct flights to both cities from most European international airports. Bus and train connections to Vigo are available in both these cities.

Webpages of interest:
- [http://www.iberia.es](http://www.iberia.es)
- [http://www.spanair.com](http://www.spanair.com)
- [http://www.airfrance.es](http://www.airfrance.es)
- [http://www.tap.pt](http://www.tap.pt) (Portuguese airline)

Apart from having numerous flight connections to Spain’s main cities, like Madrid, Barcelona, Bilbao or Sevilla, Vigo is also conveniently linked to inland Spain by a highly efficient train service, whose timetables and routes can be checked at [www.renfe.es](http://www.renfe.es).

Finally, numerous bus routes to several Spanish destinations are available at [http://www.castromil.com](http://www.castromil.com)

More information on how to get to campus can be found in our web:

### TRANSPORT IN TOWN (BRIEF INFORMATION ON THE MAIN MEANS OF TRANSPORT AVAILABLE)

Moving around in Vigo by car can be quite daring at rush hours due to the heavy traffic at certain points of the city. However, to compensate for this difficulty, Vigo Bus Company (VITRASA) offers a convenient schedule of bus routes that covers the whole metropolitan area of the city. The different bus routes to the campus as well as urban routes can be consulted at the Vigo Bus Company’s website [http://www.vitrasa.es](http://www.vitrasa.es).

For those interested in discovering the touristic spots of Vigo, they can use the Sightseeing Bus. Vigo’s Sightseeing Bus runs during Easter and in summer (from the 15th June to the 31st October).

### SHORT DESCRIPTION OF THE ORGANISING INSTITUTION

Established in 1990, the University of Vigo has managed to consolidate itself in time as a reference of modernity and innovation in Galicia. Its three campuses at Ourense, Pontevedra and Vigo offer degree programs in the fields of
science, humanities, technology and legal-social. These are distributed over nearly thirty centers where research groups also carry out their R&D activities. A network of own centers completes the research infrastructure map of the University of Vigo, which has been ranked fifteenth in the classification of Spanish universities for its scientific production.

The Vigo campus is outside city limits but near the city centre. It is a reference for contemporary architecture with buildings designed by Mr. Enric Miralles, Mr. Alberto Noguerol & Ms. Pilar Díez, Mr. César Portela and Mr. Gabriel Santos Zas. The University City of Vigo is inspired on an academic city ideal similar to that found in many US universities. Teaching buildings are combined with administrative and residential areas, sports areas, scientific complexes and with leisure areas, which contribute to enriching daily university life on campus. The swimming pool, gymnasium and the shopping centre are some examples of services offered that enable one to make the most of possibilities available on this campus which is located at quite a distance from the urban bustle but with good communications with the city centre, where we find some of the teaching facilities.

In order to provide a response to society’s demands for comprehensive training of professionals, the three campuses of the University of Vigo have infrastructures that are exclusively destined for leisure activities, and these include swimming pools, sports pavilions, theatres and exhibition halls. It likewise promotes and facilitates student mobility and has achieved number one status in Galicia with respect to number of incoming foreign students and number of outgoing students to foreign universities.

Modern, audacious and plural, the University of Vigo’s principal assets are its people. Our web page: http://www.uvigo.es is directed so that people can get to know us not only on issues related to teaching and research but also to learn about our firm commitment to comprehensive training and about the vocation we place at the service of our society.

The general objectives of the Universidade de Vigo concerning the internationalization are to promote the exchange of professors, researchers, students and administrative staff and prepare them for the global labour market; to gain recognition in the international education market, establishing strategic partnerships, and internationalizing the teaching and research; to promote innovative international projects in a framework of multilateral and cross-border cooperation and to attract and retain the best, offering all our visitors the possibility to learn our own language, Galician Language.

The Area de Normalización Lingüística of the Universidade de Vigo has over ten years of experience in the teaching of Galician Language courses at different levels and targeted at different university groups (university staff, foreign staff, etc...)

- **ACCOMMODATION**

  - **SHORT DESCRIPTION OF THE ACCOMMODATION OFFERED (HOTEL, APARTMENTS, STUDENT HALLS, OTHERS; IF THERE ARE COOKING FACILITIES) AND ON THE RENT TO BE PAID PER WEEK**

  Students who enrol in the EILC course will be offered two different accommodation offers depending on the length of their stay in Vigo. Those students who only attend the EILC courses will be given the option of staying at a hostel/hotel at the city centre. The International Office will provide students with a list of suitable hotels and hostels for those students who require it. In order to get it, students will have to send an email to ori3@uvigo.es, specifying that they are EILC course students.

  Students who will attend the EILC course and stay in Vigo for their Erasmus exchange period will be given the option of a flat shared with other students.

  The International Office (http://international.uvigo.es) provides an accommodation search service for exchange students to ease their integration in Galicia and help them find suitable accommodation options.
Meals

-Galician gastronomy

Galician cuisine is characterized by its great variety and its use of high quality natural products. The Galician Rías offer a wide variety of fish (mostly eaten boiled or grilled) and seafood (oysters, goose barnacles, spider crabs or small edible crabs), which attract many tourists to Galicia. The most popular sauce is the so-called "ajada" or "allada", made with garlic, olive oil and paprika.

We would recommend Galician white wines such as Albariño, Condado, Rosal or home-made wines to accompany Galician fish and meat. When buying meat, ask for Galician veal with guarantee of origin.

Galician specialities include:

- Pies (empanadas or empanadillas) stuffed with meat, cod and raisins, tuna, sepia, baby scallops, etc. The dough used is either normal fine pastry dough or dough made from corn flour (typical).
- Cocido gallego (Galician stew): different types of meat (pork, veal and poultry).
- el caldo gallego (Galician broth): turnip greens, potatoes, meat and pork fat.
- el lacón con grelos (boiled ham and turnip greens).
- la caldeirada de pescado: potatoes and different types of fish (monkfish, ray, etc.)
- el salpicón: boiled fish and seafood, served as a cold dish, with vinegar dressing.
- pimientos de padrón: small green peppers from Padrón.

Cheese and home-made desserts are served after meals. Tetilla, a Galician cheese variety, is usually eaten with quince jelly. Other typical desserts are: Tarta de Santiago (almond cake), filloas (regional variety of crêpes) with honey or cream, cañitas (rolled pastry filled with custard or cream and covered with icing sugar and cinnamon), different types of doughnuts, leche frita and rice pudding. And to accompany desserts, spirits such as aguardiente or the typical queimada are served.

University Canteens

Most Faculties and University Colleges of the University of Vigo have got their own cafeteria and dining facilities, so students can have cold tapas, sandwiches, and menus made up of two main dishes and dessert. Cafeterias are continuously open from 08:00 or 09:00 hours to 20:00 or 21:00 hours. Meals are served at the restaurants of each Faculty from 13:30 hours approximately to 16:00 or 16:30 hours. Some Faculties have a self-service option available, where students can choose from a selection of hot and cold dishes. The average price of university canteens is 6 euros (including a starter, a main course, dessert and drink).

There are also many vending machines for drinks, coffee and snacks located in the cafeterias and lobbies of many Faculties. What is more, at the commercial central area of the University students will also find a wide offer of services/coffee shops/ restaurants at very affordable prices.

Reception of students

-Meeting Point (place, date and time of first meeting - for each course where different)

The International Relations Office offers a pick-up service for foreign students. These are volunteer students from the University of Vigo who offer to help foreign students arriving to the University for the first time. To request this service, students will have to fill in their personal information on a form (arrival form) and indicate their arrival date and means of transport. The ORI will assign a volunteer to each international student according to his/her language level and the volunteers’ time availability, if the arrival form is received with enough advance notice.

Volunteers will:

- Contact the foreign student by e-mail to advise him/her before coming to Galicia.
- Pick the student up at the airport or railway station in Galicia and take him/her to the university
- Help the student to find accommodation.
- Go with the student to the Area de Normalización Lingüística and help him/her with enrolment procedures.
- Give practical information on cultural, sports and leisure activities the city can offer.

Arrival form available at:
http://www.uvigo.es/uvigo_en/Administracion/ORI/informacion_estranxeiros/guia_estudante_estranxeiro/servizo_a_collida_estudantes.html

Meeting point: 5th of September. 9.00 hours at the Facultad de Filología y Traducción. Área de Normalización Lingüística.

**EXTRA MURAL ACTIVITIES**

- **SITE VISITS**

For possible site visits please check:

- www.turgalicia.es
- www.riasbaixas.org

- **SPORTS FACILITIES (SWIMMING, TENNIS, GYMNASIUM; OPENING DAYS AND AVAILABLE INFORMATION)**

The University has its own sports facilities at its campuses in Pontevedra and Vigo (Lagoas-Marcosende) which can be booked by university members. There is also a weight training room at the university sports hall in Vigo, together with sports counseling service and an indoor swimming-pool.

**Sports Services Directory**

http://deportes.uvigo.es

**Vigo Campus**:
Sports Building. Sports Area. Campus Lagoas-Marcosende
Tel.: +34 986 812204
Fax: +34 986 814061
E-mail: deportes@uvigo.es

- **ENTERTAINMENT (CINEMA, THEATRE, ETC.; BRIEF INFORMATION ON PLACES AND STUDENT FACILITIES)**

The University Extension Service organizes an extensive cultural programme structured around the two major teaching block (winter semester-summer semester) and which includes theatre, concerts and street shows.

It also organizes other cycles, such as Universium the submarine cinema week, courses and workshops dealing with subjects that are interesting to student training.

This Service also organizes prizes for artistic creation - an annual event directed towards disciplines such as audiovisual creation, photography, painting and music rough cuts.

Apart from these activities organized by the university, Vigo’s city hall develops a number of cultural events throughout the year, such as theatre cycles, normally held at Caixanova Cultural Centre, artistic expositions and different cinema showings at the Ludoteca Municipal and CaixaGalicia Auditorium.
Note: where more than one course is organised at each level, this form should be copied and completed for each course
